Village of Necedah Service Line Materials Inventory

This is the Village of Necedah's Service Line Materials Inventory. Under the U.S. Environmental Protection Agency's (EPA) 2021 Lead and Copper Rule Revisions (LCRR), public water systems must develop and maintain an inventory of all service line materials connected to the distribution system and make the inventory publicly accessible. This spreadsheet reflects the inventory of our service lines and their materials in the Village of Necedah's water systems.

The following are definitions for the abbreviations listed under CURRENT STREET SIDE SERVICE LINE MATERIAL and CURRENT PROPERTY SIDE SERVICE LINE MATERIAL:
